

Bottled Up!

It certainly is disheartening to a patient to find that the treatment he is given for a disease is more disastrous than the disease itself. Such is the case, however, with the usual treatment given for diseases of the blood.

Notwithstanding the great progress made in many branches of medicine, the doctors have failed absolutely to find a successful treatment for blood poison, and the many diseases having their origin in the blood. They give but one kind of medicine, they know but one treatment, and whether in the form of powder, pill or liquid, the doctor's prescription is always the same—potash or mercury.

Too much cannot be said of the harmful and disastrous effects of these drugs. The doctors are unable to rid the system of the poison, and direct their efforts toward covering up the symptoms from view. There is but one effect to be obtained from potash and mercury—they bottle up the poison and dry it up in the system, but it must be remembered that they dry up the marrow in the bones at the same time, gradually consuming the vitality. Those disgusting copper-colored spots are but indications of worse results to follow. No sooner has the system taken on the full effects of this powerful drug than that suppleness and elasticity of the joints gives way to a stiffness, followed by the racking pains of rheumatism. The form grad-

ually bends, the bones ache, while decrepitude and helplessness prematurely take possession of the body. Under this treatment, it is but a short step from vigor and health to a pair of crutches. With this wreck of the system often comes falling of the hair and eyebrows, loss of finger nails, and decay of the bones—a condition most horrible. This is no overdrawn picture, for the world to-day is full of these hobbling mercurial wrecks.

Contagious Blood Poison is the most horrible of all diseases, and has been appropriately called the curse of mankind. Until the discovery of S. S. S., it was incurable. It has always baffled the doctors, and it is in this disease that the evils of mercury and potash are most common, because these drugs are given in such large doses in an effort to counteract the poison. While they succeed in bottling up the poison in the system, it always breaks forth again, attacking some delicate organ, frequently the mouth and throat, filling them with eating sores. S. S. S. is the only known cure for this terrible disease.

It is the same in other diseases of the blood. Scrofula, Eczema, Cancer, Rheumatism, all are given the same treatment by the physicians—mercury and potash, and the result as above set forth is always the same.

We offer a remedy purely vegetable, powerful in its effect, yet harmless in every way. For fifty years S. S. S. has been curing blood diseases, from the most violent to the mildest case, after all other treatment failed. It is guaranteed purely vegetable, and one thousand dollars reward is offered for proof to the contrary. It is a real blood remedy for real blood troubles, and never fails to cure Contagious Blood Poison, Scrofula, Eczema, Rheumatism, Cancer, or any other disease of the blood. If you have a blood disease, take a remedy which will not injure you. Beware of mercury; don't do violence to your system. Don't get bottled up!

Our books on blood and skin diseases, will be mailed free to any address. Swift Specific Co., Atlanta, Ga.

NEW HUMANITY.

Dr. Bickley Delivers a Thoughtful
Sermon on that Subject.

DRAW A BEAUTIFUL PICTURE

Of the Glories of the New Humanity,
which slowly, but surely, is approaching—
Selfishness and Greed will Have
No Place Under the New Order of
Things—The Sermon in Detail.

Rev. Dr. Bickley took for his theme Sunday night, at the Thomson M. E. church "The New Humanity." As this is a subject to which the doctor has been giving much careful study, he was able to trace the developing forces to the present and indications for the future growth of a condition of humanity far different from the present times. The doctor said: "We are warranted to take a very optimistic view of life in the light of scripture contrasted with the advance of man. There may have been dark ages, but they were displaced by larger and better light and life. There were apparent degeneracies and revolutions, but out of their ashes new life and beauty came. Out of the old humanities of the past the new humanity has been taking better and larger symmetry. There is a growth of fulfillment of that prophecy that 'the government shall be upon His shoulders.' Christ and His life and teachings have been molding society and are leavening the lump of humanity gradually and slowly, yet surely.

The new humanity has for its largest inspiration the new power and character of man revealed for man in Christ Jesus. The universal domination of Jesus is most assuredly declared, and the way of the Lord is being gradually and laboriously prepared and his paths are being made straight. There are at work mighty forces whose culmination will be a commonwealth of New Humanity of which Christ is the Head. The controlling spirit of that coming age will be the commonwealth of a glorious commonality. The watchwords of the French revolution 'Liberty, equality, fraternity,' will have perfect realization in that age predicted, promised, and in commencement. Its liberty will be that freedom of the Son of Man, where by the law of the spirit of life in Christ Jesus hath freed from the law of sin and death. The equality will be that accomplished by the breaking down of middle walls, for to make in Himself of twain one new man by the reconciliation of His Cross. For all through Him have access by one spirit into the Father.

"Its fraternity will be worldwide by the Fatherhood of God and the Brotherhood of Man. For He hath made of one blood all nations of men for to dwell on the face of the earth. Liberty, equality and fraternity are to have their fullest realization among men in that age of the new heavens in the new earth sustained by the new man.

"The very possibility of the commonwealth of the New Humanity is overwhelming. No wonder the sage and philosopher, Leibnitz, of Germany, broke forth in raptures at the thought of his 'Commonwealth of Souls,' or the blind seer Milton grew eloquent under his majestic vision of the 'Christian Commonwealth.' No wonder the saintly Augustine fell into divine trances as he wrote his contemplations of the spiritual kingdom in the 'City of God,' or Elisha Mulford struck a chord of universal hope and exultation in his glowing volume on 'The Republic of God.' That sweet vision from Galilean hills was no chimera nor fond Utopian dream of generous deluded hearts, but was a living, throbbing ideal; a living undying developing truth that should rear its head above all chaos and confusion.

"The commonwealth of the New Humanity perfected and completed through the Christ will manifest the climax of the ages through the divine evolution of the cross. It is toward this profound goal of redemption that we advance steadily day by day. This commonwealth is founded upon the most glorious foundation upon most unperishable foundations. It is a humanity redeemed, purified and made God-like by the modelling spirit of Christ; a humanity in which are to be found love, joy, peace, long suffering, kindness, benevolence, self-control and charity; where obtains the real, more abundant life, the true and broad life of heaven, in that 'New Man' from heaven, who came to be a revelation to humanity of the possibilities of its life. It is in Him alone that the longings and searchings of humanity are satisfied and consummated. For in Him 'God was manifest in the flesh,' full of grace and truth.

"The rock foundation of this new commonwealth is to be found in incarnation, triumphant life and death of the All-Sufficient Savior. In the travail of the soul of the God-man was born the new humanity. 'The Son of God' says Augustine became Son of Man that we might become Sons of God. He died for this new humanity, to elevate it, to establish it, to rescue it, to save it.

"As to the nature of this new commonwealth, find its simplicity in the gospel. It is a practical development of the divineness and devotion and helpfulness in Christ. It has but two laws, namely the essence of the decalogue, and the gospel of Christ Jesus. That double commandment of Christ embraces the fullest inspiration of its ethics, 'loving the Lord God with all the heart and thy neighbor as thyself.' That 'golden age' about which poets have sung and sages have written and hearts have dreamed, will be realized when men unite in devotion to the 'Golden Rule.'

"The government of this New Humanity is purely spiritual; only such can be sustained upon the basis laid down by the Master, which basis is found in righteousness and true holiness of heart. Separate portions of the human family have reached out after an adjustment of surrounding environment to what they have felt was to be theirs. Out of these confusions new light and power will spring to the enlarged benefit of man.

"The essential elements of this new humanity is the regenerated individual. To improve society and to advance civilization, is of no avail unless there is an inward cleansing. The innermost fountain must be clean that all outflowing waters may be living and pure. It is a commonwealth whose principles are those taught and implied in several remarkable classifications of character. Its elements proclaimed by Christ in the Beatitudes and the Apostolic Epistles. Its controlling principle and spirit is found in self-sacrificing love and helpfulness to humanity about us. To find its fullest ideal look at Christ Himself. His spirit is the spirit of this new commonwealth of souls. In perfect example is the Christ, condescending, compassionate, tender, forgiving, full of encouragement to the weak and wayward, full of comfort for the distressed and disappointed, withal full of a wealth of moral grandeur in simple purity and breadth, resolute vigor and nobleness of sterling manhood.

"What a new inspiration, then, should be to the life of everyone. When a privilege and dignity is revealed to man that he may move forward in concert with the Divine—in these channels of life and power which will prove successful, though all the gates of hell be opened against it! His pledge is with each of us who unite to advance this glorious possibility. He declares 'For I am with you always.' Let us reach out after the ideals of God and make them realities in our lives and experiences and do our part to establish this commonwealth of that new humanity fully pledged of God to man, in which all that makes for beauty and good shall obtain and all that is evil shall be done away."

A YOUTHFUL CRIMINAL.

He Tries to Poison an Entire Family,
Made Repeated Attempts.

EUGENE, Ore., April 14.—Oral Pindexter, a lad twelve years old, was arrested at his home, four miles north of Coberg, this morning, and was brought to this city on a charge of attempting to kill the family of Mrs. Hiram Smith, a widow, who lives on a farm adjoining that of the Pindexters. For some time past the Smith family have felt that they were the victims of persecution, as repeated attempts had been made to poison the entire family by scattering poison about the dishes and eatables.

S. O. Garrison, a neighbor, was appointed special officer to ferret the matter out. He obtained his first clue last Saturday. Mrs. Smith was away from home, but one of the little girls was left to keep watch. She saw the boy come with a vial and pour something into the pump. The next day she was working about the chicken house and was struck over the back of the head with a club by the same boy and was left unconscious. Other evidence was secured against the boy until sufficient was obtained to warrant his arrest. It is supposed that Pindexter's act is the result of some old feud between the families.

MISSIONARIES MAY REMAIN.

The Sultan's Trade Directing Their
Expulsion Repealed for the Present.

CONSTANTINOPLE, April 14.—The thorough ventilation which the action of the sultan towards the Protestant and Catholic missionaries in Asia Minor has received through the Associated Press has had decidedly beneficial effect. The United States Charge d'Affaires, Mr. John W. Riddle, has received a written assurance from the Turkish government that the Rev. Mr. George P. Knapp, the American missionary recently expelled from Erzurum will be delivered to the United States consul at Alexandretta. It is further stated that the sultan's trade directing for the expulsion of the other missionaries from Asia Minor has been repealed and for the present at least, missionaries need not anticipate any further trouble.

The Soudan Campaign.

NEW YORK, April 14.—A dispatch to the Herald from Wady Halfa, Egypt, says: Sagras and Akasheh have been strongly garrisoned. The railway between these points is being pushed forward as rapidly as possible.

The Dervishes at Suarda, who number 3,000, have advanced their posts to Mograk, distance fifteen miles from Akasheh, the main body of Dervishes still remaining at Dongola.

The general effect of the announcement of the expedition has been exultant in the Soudan and has been of the most service to the Italians at Kassala.

Met His Desert.

NEW CASTLE, Pa., April 14.—Mrs. Susan Schaeffer, aged seventy-six years and her housekeeper, Mrs. Martha Burt, were alone at their home near Bessemer last night, when an unknown Italian appeared and attempted to assault Mrs. Burt. She ran to another room, pursued by the man, and just as he was about to seize her, she grasped a revolver and shot him, the ball taking effect in the bowels and instantly killing him.

Bishop Ryan's Funerals.

BUFFALO, N. Y., April 14.—The funeral services over the remains of the late Bishop S. V. Ryan were held in the cathedral to-day. Archbishop Corrigan, officiated at the pontifical high mass and the sermon was preached by Archbishop Ireland. Priests from various parts of the United States and Canada were present. The body, at the conclusion of the ceremonies was lowered into the vault in the cathedral beside that of his predecessor in office.

The Kaiser at Vienna.

VIENNA, April 14.—The emperor and empress of Germany and their suite arrived here from Venice at 10:15 a. m. Emperor Francis Joseph and the archduchess Marie Josefa met their majesties at the railroad station and warmly greeted them.

The visitors and their host were driven to the Hofburg and were enthusiastically cheered by the crowds in the street between the railroad station and the palace.

Will be Considered To-day.

ALBANY, N. Y., April 14.—The consideration of the question of re-passing the Greater New York bill over the veto of Mayor Strong and Wurstler will be deferred until to-morrow, owing to the absence of Senator Ellsworth, the Republican leader, from to-day's session.

Favor Admission.

WASHINGTON, April 14.—At a special meeting of the house committee on territories to-day the Arizona statehood bill was ordered reported favorably to the house. The vote stood five in favor and two against.

Results Tell the Story.

A vast mass of direct, unimpeachable testimony proves beyond any possibility of doubt that Hood's Sarsaparilla actually cures perfectly and permanently cure diseases caused by impure blood. Its record of cures is unequalled and these cures have often been accomplished after all other preparations had failed.

HOOD'S PILLS cure all liver ills, biliousness, jaundice, indigestion, sick headache.

Notice.

To my Democratic Friends:
Owing to the shortness of time before the primaries, I may not be able to account of physical disabilities with rheumatism personally. NEW MEDICAL DISCOVERY.

A Positive Cure for Dyspepsia.

This may read as though we were putting it a little strong because it is generally thought by the majority of people that dyspepsia in its chronic form is incurable or practically so. But we have long since shown that dyspepsia is curable, nor is it such a difficult matter as at first appears.

The trouble with dyspepsia is that they are continually dieting, starving themselves or going to opposite extremes or else deluging the already over-burdened stomach with "bitters," "after-dinner pills," etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. Such treatment of the stomach simply makes matters worse. What the stomach wants is rest. Now how can the stomach become rested, recuperated and at the same time the body nourished and sustained.

This is the great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets. This is a comparatively new remedy, but its success and popularity leaves no doubt as to its merits.

The Tablets will digest the food anyway, regardless of condition of stomach.

The sufferer from dyspepsia according to directions to eat an abundance of good, wholesome food and use the tablets before and after each meal and the result will be that the food will be digested no matter how bad your dyspepsia may be, because as before stated, the tablets will digest the food even if the stomach is wholly inactive. To illustrate our meaning plainly, if you take 3,000 grains of meal, eggs or ordinary food and place it in a temperature of 98 degrees, and put with it one of Stuart's Dyspepsia Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach.

The stomach may be ever so weak yet these tablets will perform the work of digestion and the body and brain will be properly nourished and at the same time a radical lasting cure of dyspepsia will be made because the much abused stomach will be given, to some extent, a much needed rest.

Your druggist will tell you that of all the many remedies advertised to cure dyspepsia none of them has given so complete and general satisfaction as Stuart's Dyspepsia Tablets, and not least in importance in these hard times is the fact that they are also the cheapest and give the most good for the least money.

Full sized package 50 cents at druggists. Send for free book on stomach diseases to Stuart Co., Marshall, Mich.

Trouble Feared.

HUNTINGTON, W. Va., April 14.—This afternoon Robert McCoy, who was arrested yesterday, was arraigned for the shooting of Officer George Johnson. He waived examination until witnesses arrive from Lincoln and Mingo counties. Violent threats have been made against the officials by the members of the notorious gang and trouble is expected.

Riot in Colombia.

NEW YORK, April 14.—A dispatch to the Herald from Panama, Colombia, says: A riot occurred in La Boca Monday among a body of laborers employed on the canal. One man and one woman were killed and many were wounded. The troops were called out to suppress the riot. The woman who lost her life was the wife of the murdered man. She attempted to wrest a bayonet from the hands of a soldier, and received a thrust which killed her instantly.

Deafness Cannot be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.
